

**43rd Hawaii International Conference on System Sciences  
HICSS-43**

**January 5-8, 2010  
Grand Hyatt Kauai, Hawaii**

**Call For Papers**

**E-Government Information Security Mini-Track  
Part of the E-Government Track**

Information Technology has become pervasive in all aspects of our lives. Governments have embraced IT to interface with citizens in a more efficient manner. Security issues have risen to the forefront as a result of data disclosures and identity theft incidents discussed in mainstream media. Other issues include intellectual property theft and criminal acts involving computers. This minitrack examines the security of information technology used by governments and critical infrastructures and explores ways that IT can enhance the ability of governments to ensure the safety and security of its citizens.

***Topics and Research Areas include (but are not limited to)***

- Systems for governments to respond to emergencies and security events
- Protection of Critical Infrastructures
- Information Assurance and Trusted Computing
- Security Related Information Sharing
- Information Warfare
- Incident Response
- Digital Forensics
- Privacy and Freedom of Information Laws
- Laws and regulation of IT Security
- Government Disaster Recovery and Business Continuity
- Case Reports Related to Security Experiences within Government

***Important Deadlines and Information***

Abstracts  
June 15, 2009

Authors may contact Minitrack Chairs for guidance at anytime.  
Authors submit full papers to the Peer Review System, following Author Instructions found on the HICSS web site ([www.hicss.hawaii.edu](http://www.hicss.hawaii.edu)).

August 15, 2009  
September 15, 2009

Acceptance/Rejection notices are sent to Authors  
Authors submit Final Version of papers

***For more information contact one of the following Minitrack Co-chairs:***
