

BACHELOR OF BUSINESS ADMINISTRATION CONCENTRATION IN FINANCE AND BANKING

BANGKOK

The Finance and Banking program covers three very broad areas of financial decision making: **investments, financial institutions, and corporate finance**. The program equips students with the knowledge and practical skills needed to successfully analyze and solve problems encountered in a finance-centered career.

State-of-the-art Bloomberg Financial Markets Lab

Stamford's state-of-the-art Bloomberg Financial Markets Lab gives finance and banking students hands-on experience using the same cutting-edge technology and information relied on by financial professionals worldwide. In Stamford's dedicated lab, finance and banking students experience the dynamics of a dealing room through simulated trading, analyze real-world problems with real-world financial market data, earn additional certifications from Bloomberg, and learn from Bloomberg specialists.

Site Visits

Finance and banking students visit exciting multinational corporations and institutions such as Bualuang Securities, The Stock Exchange of Thailand, Maybank Kim Eng (Thailand), the Bank of Thailand, and more. Site visits help students develop their understanding of how theoretical principles are applied in a real working environment and provide an opportunity for students to interact and build connections with industry experts.

Internships

Finance and banking students build up their experience by undertaking an internship. Students have successfully completed internships at the following places:

CAREER OPPORTUNITIES

A wide range of job opportunities are available to students, including:

- Financial Planner
- Stockbroker
- Securities Analyst
- Investment Banking Analyst
- Cash Manager
- Capital Budgeting Analyst
- Loan Officer
- Credit Analyst
- Financial Analyst
- Project Finance Manager
- Insurance Agent
- Underwriter
- Risk Manager
- Mortgage Banker

Dual Degree Options

Finance and Banking students who wish to deepen their understanding of the world and also boost their employability can earn a second degree from the University of the West of England or The University of Northampton by completing one additional year of study in the U.K.

CFA Institute University Affiliation Program

The Finance and Banking program has been acknowledged as incorporating at least 70 percent of the CFA Program Candidate Body of Knowledge and placing emphasis on the CFA Institute Code of Ethics and Standards of Practice within the program. The program positions students well to obtain the Chartered Financial Analyst® designation, which has become the most respected and recognized investment credential in the world.

Co-Branded Program

The Finance and Banking program is a co-branded program with Maybank Kim Eng (Thailand). This collaborative partnership improves the relevance of the program, giving both faculty and students the opportunity to interact with industry professionals and keep abreast changes in the world of finance. Other benefits of this tie-up include internship placements at Maybank Kim Eng and workshops and seminars from Maybank Kim Eng professionals.
