QS has, through rigorous and independent data collection and analysis of performance metrics as set out in the QS Stars™ methodology, rated Stamford International University 5 Stars in Programme Strength.

 Stars

BUSINESS & MANAGEMENT STUDIES

The QS Stars™ methodology is a systematic and transparent way of measuring the quality of higher education. It is the independent expert of the QS World University Rankings Group (QS). The global evaluation is conducted across a wide range of important performance indicators to set against an international benchmark standard. By using a number of important metrics and quality assurance, QS Stars™ offers a light to help the excellence and the diversity of the world's institutions.

Luigi Santillo, Head of Evaluation

For Example, the Faculty of Public Administration and Social Studies, as one among other departments of Stamford International University, endeavors every effective method and efficient management to drive the university to reach international standards. The Faculty of Political Science and Social Studies has fulfilled various missions set by the university in terms of graduate production, research, academic services, community services, and the preservation of arts and culture.

In the past year, the Faculty of Public Administration and Social Studies has achieved the following:

1. Faculty members and students produced 24 publications published in recognized journals both TCI1 and TCI2. New knowledge synthesized from those research works, academic articles, and research findings printed in publications benefit communities, organizations, and related agencies.

2. Faculty members and students organized several outstanding community service projects that were both knowledge-providing to community and community development such as a three-month length project to develop the potential of agricultural entrepreneurs in the digital age to promote agricultural tourism. This non-degree project was supported by the Ministry of Higher Education, Science, Research, and Innovation, and for teaching and learning in this project, the Faculty of Public Administration and Social Studies received a strong collaboration from 8 external agencies who are experts in the field to support with curriculum design, teaching and learning activities, practical training, and course evaluation.

3. Asst. Prof. Dr. Bampen Maitreesophon; Dean, as a researcher and project leader for the development of an internal quality control of geographical indication products that received a budget from the Department of Intellectual Property almost ten years ago. However, after completing the project, she continued to research for several years on Rainbow Phet Rose Apple; a

well-known and luxurious geographical product of Phetchaburi Province until reaching her success in 2023. She had been granted permission to use the Thai Geographical Indication Symbol as the producer of Rainbow Diamond Rose Apples, a registered geographical indication product of Phetchaburi Province, by the Department of Intellectual Property, Ministry of Commerce. The permission is valid for two years from July 25, 2023, to July 24, 2025.

4. One of the students in the Faculty of Public Administration and Social Study as a team member in the Media Literacy Project, the project was supported by the National Broadcasting and Telecommunication Commission and aimed to educate community leaders and members of the public about media literacy and how to consume media mindfully and carefully not to fall victims to online fraud include online products purchasing. Team members of the project organized workshops and produced training materials for 150 leaders and community members. At the end of the project, the project members presented their work on a stage at a national level among the other 50 teams all over the country participating in the Project with the National Broadcasting and Telecommunication Commission. The Faculty of Public Administration and Social Studies team received an honorable mention, which makes us proud of our students.
